

# Good Practices Repository

of responsible ICT Research and Innovation with SSH input

Title of the initiative

## OPIN - A European toolbox for youth eParticipation projects

### Description of Initiative

OPIN is an all-in-one digital and mobile toolbox for anyone who wants to set up and run a digital youth participation project – young people themselves, youth workers, youth organizations administrations etc. .The platform offers several options for project frames, such as city planning features, idea challenges, collaborative text reviewing and many more. OPIN is safe by design and supports project managers with hands-on tips and tricks to make sure that their projects are a success. With OPIN even newcomers can run digital participation projects! Check out [www.OPIN.me](http://www.OPIN.me)

online platform, participation, youth, open source, decision support

### Type of Output of Initiative

Design of new SSH-inclusive ICTs | Establishment of a Community of interest

### Country(ies) involved

Germany | France | Belgium | Slovenia | Luxemburg | Italy | Sweden | Denmark | Malta | Georgia | Macedonia

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement N° 769497

## SSH disciplines involved

Anthropology | Political science | Psychology | Sociology

## ICT domain involved in the initiative, both for the activities and as for output.

Content technologies and information management, big data, open data, languages learning and teaching technologies, creative technologies, gaming and new interactions technologies

**Method used to exchange information and knowledge to include the RRI principles into the ICT research and innovation processes**

- Cooperative workshops
- Focus groups
- Round tables
- External revision of SSH experts
- Face-to-face meetings
- Adaption of the (digital)

**Participation and engagement of people and organizations in the implementation of the initiative**

They all participate into a funded project/in

**Number of people participating**

10.000

**Number of organizations participating**

11

**Number of events held**

115

**Number of researchers (ICT+SSH) involved**

40

**Number of women involved**

-

**Number of joint discussion themes**

-

**Who sustained the cost / effort**

EU H2020

## How it is / has been funded this initiative?

Public funding

## Notes

-
